## Commitment to Excellence

*The mission of Springwater Environmental Sciences School is to integrate the sciences throughout the academic core curriculum in a nurturing environment created and maintained by a high level of parent and community involvement. We believe that the sciences are conducive to powerful learning, and that increasing the presence of hands-on experiences with "real world" science in all subjects will increase motivation, relevance, and achievement for our students, as well as foster children's natural curiosity in the world around them.*

**Your contribution is tax-deductible to the extent allowed by the law. It will assist us in providing a quality, well-rounded education for our students.**
