Dear Parents/Guardians,

This is to inform you that a classmate of your child at Springwater Environmental Sciences School is immune suppressed due to medical treatments.

It is important for this family to know if their child is exposed to any infectious illnesses, especially Chickenpox or Whooping Cough. **For this reason, it is important for the family to be notified within 24 hours if your child develops chickenpox, Whooping Cough or any other communicable illness.**

Please notify Cheryl the school nurse @ 503-785-8400 Ext 7219 or the Springwater Staff @ 503-631-7700, as soon as possible so that the compromised child can be seen by their medical provider to be treated appropriately.

This is also a good time to remind parents to keep your student home when they become ill. All students need to be fever free (without the aid of medication) for 24 hours prior to returning to school. Please also review with your child the importance of frequent hand washing to avoid getting sick.

Please feel free to contact me with any questions or concerns.

With Regards,

Cheryl Sharkey, RN, BScN, MN(AP)(c)
Oregon City School District Nurse
