COMMITMENT TO EXCELLENCE

The mission of Springwater Environmental Sciences School is to integrate the sciences throughout the academic core curriculum in a nurturing environment created and maintained by a high level of parent involvement. We believe that the sciences are conducive to powerful learning, and that increasing the presence of "real world" science in all subjects will increase motivation, relevance, and achievement for our students, as well as foster their natural curiosity in the world around them.

Your contribution is tax deductible to the extent allowed by the law. It will assist us in providing a quality, well-rounded education for our students.
